Our exquisite scents are born from rare, globally sourced ingredients of the highest quality and are rooted in our clean-burning, proprietary coconut wax blend—a first of its kind.

Our fragrances, hand-poured in California with hand-set labels and 100% natural wicks, are encased in ornate packaging, designed in-house. These vessels serve as colorful pops of elegant decor, and can be repurposed and enjoyed long after the final flame.

A well-rounded combination of quality, artistry and global inspiration serve as the backbone of who we are. From our house, to your home...
